

## MAIN SKILLS

- Programming
  - Go (Golang)
  - Protobuf
  - HTML/CSS/JS
  - PostgreSQL
  - DynamoDB
  - Bash
  - Dart
  - C#
- DevOps
  - AWS
  - GCP
  - Docker
  - Kubernetes
  - Terraform
  - Ubuntu/Debian
  - Nginx/Caddy
  - Github Actions
  - Datadog
- Frameworks
  - gRPC
  - Go Echo/Gin
  - GORM
  - Vue.js/React.js
  - Flutter
- Tools
  - Github/Bitbucket
  - Postman
  - ZSH
  - Trello
  - Jira
  - Jetbrain

## RECENT WORK EXPERIENCES

### Software Developer (Golang)

*IQ Hive | 2021 Mar - present*

Backend development using Go and gRPC, with a strong focus on the GCP ecosystem, involved in developing and maintaining containerized serverless web applications in GCP, along with on-premises Portainer services.

### Freelance Software Developer (Vue.js & Golang)

*W.A.Y STUDIO | 2020 Oct - 2021 Mar*

Freelancing as a fullstack developer, taking on projects that encompass web and Flutter mobile app development. I've had the opportunity to design, develop, and deploy multiple end-to-end cloud-native applications.

major accomplishments:

- Truck driver task management system.
- Social trading system in finance.

### Software Developer (Vue.js & Golang)

*GOGO Technology | 2019 Feb - 2020 Oct*

Software development for the GOGO food delivery system, involved in the development and maintaining of Go microservices on AWS EC2 servers managed with self-hosted Kubernetes. Also worked on Vue.js SPAs and Flutter mobile apps.

major accomplishments:

- Product management admin portal.
- Business landing site.
- Driver work hour tracking app.
