

MAIN SKILLS

- Programming
 - Go (Golang)
 - Protobuf
 - HTML/CSS/JS
 - PostgreSQL
 - DynamoDB
 - Bash
 - Dart
 - C#
- DevOps
 - AWS
 - GCP
 - Docker
 - Kubernetes
 - Terraform
 - Ubuntu/Debian
 - Nginx/Caddy
 - Github Actions
 - Datadog
- Frameworks
 - gRPC
 - Go Echo/Gin
 - GORM
 - Vue.js/React.js
 - Flutter
- Tools
 - Github/Bitbucket
 - Postman
 - ZSH
 - Trello
 - Jira
 - Jetbrain

RECENT WORK EXPERIENCES

Software Developer (Golang)

IQ Hive | 2021 Mar - present

Backend development using Go and gRPC, with a strong focus on the GCP ecosystem, involved in developing and maintaining containerized serverless web applications in GCP, along with on-premises Portainer services.

Freelance Software Developer (Vue.js & Golang)

W.A.Y STUDIO | 2020 Oct - 2021 Mar

Freelancing as a fullstack developer, taking on projects that encompass web and Flutter mobile app development. I've had the opportunity to design, develop, and deploy multiple end-to-end cloud-native applications.

major accomplishments:

- Truck driver task management system.
- Social trading system in finance.

Frontend Developer (Vue.js & Golang)

GOGO Technology | 2019 Feb - 2020 Oct

Frontend and backend development for the GOGO food delivery system. Initially, I worked on the frontend Vue.js development. Later, I was involved in the development of Golang microservices on AWS EC2 servers managed with self-hosted Kubernetes.

major accomplishments:

- Product management admin portal.
- Business landing site.
- Flutter mobile Apps.
