RECENT WORK EXPERIENCES

Software Developer (Go Backend)

IQ Hive | 2021 Mar – present
Backend development with Go, gRPC and cloud native development with GCP.

Freelance Software Developer (Vue.js & Go)

W.A.Y STUDIO | 2020 Oct – 2021 Mar
I worked as a freelancer under the name W.A.Y Studio, working on Web and Flutter app development. During the time, I have successfully delivered a driver management system and a social trading system also several minor projects.

major accomplishment:

- Flutter mobile app for truck driver task management and location tracking.
- Vue SPA and Flutter mobile app for a finance social trading platform.

Frontend Developer (Vue.js & Go)

GOGO Technology | 2019 Feb – 2020 Oct
I worked on the GOGO food delivery SPAs and many other minor projects. These include frontend Vue.js development, backend Go microservices REST API development, AWS operations and Flutter mobile app development.

major accomplishment:

- Product management admin portal Vue SPA.
- Business landing site with Vue.js SSG(static site generator) technology.
- Flutter mobile Apps.
